Bryan's Managers Make Claims As They Have In Two Previous Campaigns, That Their Candidate Will Be Successful This Year.

[SPECIAL TO THE GAZETTE.]
(By H. G. McVicker.)
Lincoln, Neb., Oct. 15.—Posted conspicuously and in bold lettering on one of the walls of the democratic headquarters rooms in Lincoln eight years ago was the following: "Nebraska for Bryan by Twelve Thousand." The prediction was thought to be modest, because Mr. Bryan then was not the candidate of his party for president and was making a vigorous canvass for the electoral vote of his home state. The prophecy of the democratic committee was not realized, because William McKinley carried the state in 1900 by a plurality not greatly below the figures predicted for his opponent, and Nebraska since then has been gradually increasing its republican vote. Nevertheless the democratic state committee is just as sanguine this fall as eight years ago that its candidate for president will carry the state by a plurality larger than predicted in 1900, and not that alone, but will take with him the victory wagon the entire state ticket four of the six congressmen and a majority of the democratic nominees for the legislature.

Bryan's name will appear on the ballot unless he formally notified the secretary of state at a specified time that his name is not to be printed on the official roll.

That Mr. Bryan will lead the vote on the democratic ticket the managers of all the parties agree. "The republicans assert with confidence that he is the only democrat who stands any chance at all of carrying Nebraska and that his chances are none too good. The republicans claim the opposition has already abandoned hope of electing the state ticket, and is bending its entire energy toward securing victory at home for the presidential nominee. The republicans further point to the fact that Nebraska is normally republican and that last year, with interest at low ebb, the candidate for justice of the supreme court was elected by nearly 13,000 on a total vote but little over two-thirds of what it will be next November. With Mr. Bryan eliminated as a factor in the contest the advantage probably lies with the republicans. In Governor Sheldon as a candidate for reelection they have one of the most popular executives ever chosen, whose term has been marked by ability

GOT HIM BY THE EARS.

George L. Sheldon, governor of Nebraska and Republican nominee for re-election, at left; Ashton C. Shallenberger, Democratic nominee for governor of Nebraska, at right.

There is ground for the rosy-hued predictions of the democrats. Mr. Bryan has been growing in popularity in his home state, in the face of two national defeats. He has never failed to say a good word for Nebraska and Nebraska likes him for it. His greatest gain in the state will be right here in his home town and county, and his warm supporters say the sentiment is not confined to Lincoln, but spreads all over Nebraska. This is the sentimental side. On the practical side is the fact that the democrats here were never so aggressive and so well prepared to make a good fight, with a campaign fund as ample as that of the republicans and a platform which the confidently assert appeals to the young voters and those who waver between the two parties at every election. Furthermore there is a fairly compact fusion between the democrats and populists, and the populists, dwindling as they admit themselves they are, hold the balance of power when they are united on any single candidate. Nebraska populists are as nearly solid for Bryan as they can be. They repudiated Thomas E. Watson openly at the St. Louis convention, holding aloof and warning their intention of voting for William J. Bryan, if he became the nominee of any party.

The democratic state ticket cannot, however, count on the solid populist support because they feel they were unfairly treated in the last campaign, the fact that in two successive years for governor and state auditor—there are democratic and populist nominees. On the primary ballot for the democratic and populist nomination (under the fusion agreement) were Ashton C. Shallenberger and George W. Hodge, both democrats. Mr. Shallenberger won the democratic nomination by a substantial majority, but Mr. Hodge was slightly in the lead as the choice of the populists. It has been asserted that there was an unwritten understanding that the candidate receiving the smallest aggregate vote of the two parties should withdraw in favor of his more fortunate competitor. This Mr. Hodge has thus far failed to do. A majority of the populists, it is claimed, will recognize Mr. Shallenberger as the regular fusion candidate, but the primary law is mandatory, and Mr.

PASSENGERS MUST SHOW THE TICKETS

Rule Requiring Inspection Before Boarding Trains Goes Into Effect on Roads.

[SPECIAL TO THE GAZETTE.]
Chicago, Ill., Oct. 15.—The rule requiring railroad passengers to show their tickets for inspection before boarding their trains went into effect today on all the railroad lines in Iowa, Nebraska, Missouri, Kansas, Oklahoma, Minnesota and Arkansas. The new rule is not particularly popular with the trainmen, because it means considerable delay in boarding the trains, at least until the traveling public and the conductors shall have become thoroughly used to the new system. On the other hand the new system has the advantage that it will prevent difficulties in paying fares to conductors in trains and will also prevent passengers from boarding the wrong train or sections of trains. Difficulties with the conductor used to arise frequently when the passengers were required to pay their fare on the train. This has been done away with altogether, as all passengers must procure tickets before they can board the train. From several of the large railroad centers slight delays and confusion have been reported today as a result of the enforcement of the new rule, but the difficulties were not serious and it is expected that the traveling public will soon become accustomed to the new rule.

[SPECIAL TO THE GAZETTE.]
Washington, D. C., Oct. 15.—The sweeping reduction of rates on live cattle from 100 pounds on range cattle shipments, which the Interstate Commerce Commission had ordered on August 27, of this year, went into effect today. The order was the result of an investigation made by the commission in consequence of a protest of the Texas cattle raisers against the Missouri, Kansas & Texas railroad and a great many other western and southwestern roads, which had advanced the rates on range cattle last spring. The order, which went into effect today, applies to fifty-nine railroads in the western and southwestern parts of the country.

Following that the Northern Pacific asked to have the matter taken into the court and all the proceedings before the commission reviewed. The hearing of the Great Northern's application for a certificate of convenience and necessity for a line on the bay front and an elevated track down Connor's Point to the Interstate bridge is to be held before the state railroad commission Saturday. The Soo and a number of property owners, object and will appear. One hearing was held on the matter in this city, and a large amount of evidence was taken. NOTICE.

I wish to state decidedly that the Trustees Sale which I have charge of for the Leonard-Underwood Co. is a genuine selling out sale and will continue only as long as the goods last. It is not a stock reducing sale, but a genuine closing out sale. All the fixtures of the store are for sale. Every statement made in the advertisements are absolutely true, and the goods are being sold at great reductions. Many of the things are marked below cost, and most everything at cost prices. This is an opportunity that does not come often, and offers bargains that would hardly be expected under other circumstances. E. W. LOWELL.

For Your Health.

Conquer your moods; don't let your moods conquer you. People who give way to moods never amount to much, because they are never masters of themselves. They never know in the morning whether they are going to do a good day's work or not, whether they are going to be a cheering or a depressing influence on the people around them. If they feel like being good-natured, they will be; if they feel like "snapping" at everybody, they will snap.

People who suffer from "moods" should be careful about their habits. They should be regular about meals, sleep, exercise and work. The condition of the health has much to do with moods, and there is nothing that contributes so much to health as absolute regularity.

Post Office Pens.

Mustard manufacturers grow rich, we are told, not by the quantity of mustard consumed, but by that which is wasted and left on the diners' plates. The saying is recalled by an interesting statement made by the postmaster general as to the number of pens supplied for use by the public in the post office of the country. It seems that last year the total was 1,250,000.—Fall Mail Gazette.

BITS OF HUMOR

ALL IN HER DREAMS.

Madie—Just back from your two-week trip in the mountains, eh?
Mildred—Yes. And, oh, you'd never dream all the proposals I had there.
Madie—No, but I suppose that's the way they came to you.

THE WOLF AND THE LAMB.

One day as the Wolf was prowling along the edge of the forest in search of his dinner he observed a young and tender lamb that had strayed away from the flock. He dared not rush upon her for fear of the shepherd and the hounds, and he therefore resorted to strategy. Creeping up to his victim and keeping himself hidden as much as possible, he announced:

"Good-morning, little Lamb. You are out all by your lonesome this morning."

"Yes; I am taking a little walk in hopes to find a four-leaf clover for my dolly," was the reply.

"I know where they grow in the greatest profusion. It is just a short distance back in the woods."

"Oh, but I promised my dolly I wouldn't go so far. If I go out of my sight she'll begin crying."

"But she'll be made happy again by the clovers. Just think how she will laugh when you bring her a dozen four-leaves!"

"And it's only a little way!" asked the Lamb.

"Just a few steps. It won't take but five minutes to go there."

"And are you the lamb?"

"Yes, of course."

"And you never eat lambs?"

"Never."

"Then I guess I will go with you, but first—"

"Come right along. The sooner you get the clovers the sooner you will be back."

"Yes, I know, but first I will run and ask my dolly why lambs have sharp eyes and horrid big fangs and sharp claws, and if she says—"

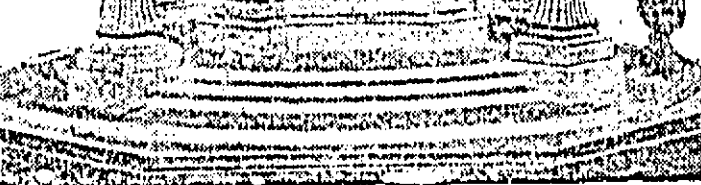

And the Lamb ran away to the flock and the Shepherd came down to the woods with his gun and caused a skulch on the part of the Hungry Wolf.

The Fox had been lying in ambush near by and had overheard the conversation, and when the Wolf had departed he snatched himself.

MONUMENT BY BARTHOLOI TO BE ERECTED IN PARIS IN MEMORY OF THE AERONAUTS OF THE FRANCO-GERMAN WAR.

Paris.—In this day of the alarship and its application to warfare we are prone to forget the highly important part the balloon played in former wars. France has just officially taken cognizance of one incident in the Franco-German war and has voted sufficient funds to build a monument to the aeronauts of this war.

As a matter of fact the balloon played an important part in the downfall of the second empire. It was on

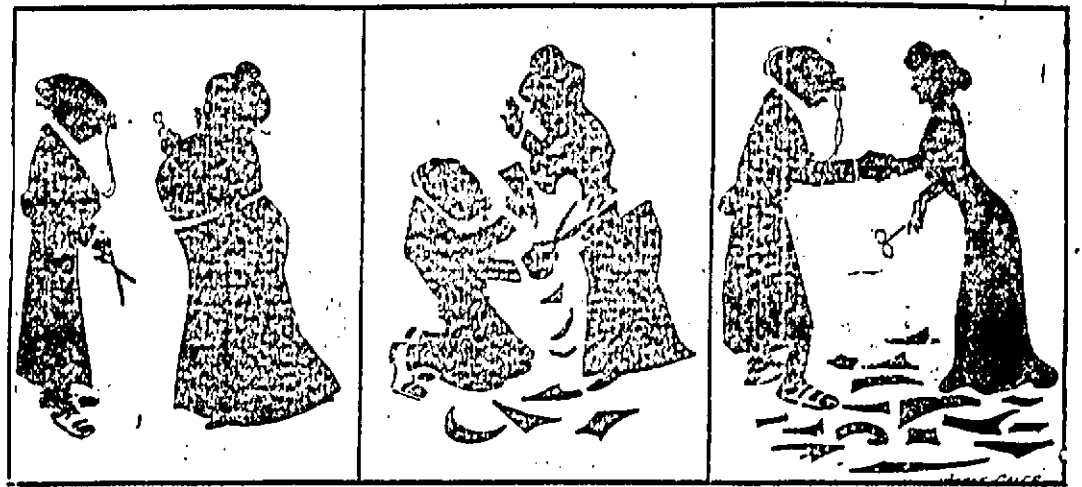

October 7, 1870, that M. Gambetta escaped from Paris by means of the balloon while it was being besieged by the German forces. Gambetta did this not so much to escape as to arouse popular enthusiasm, over the province with his cry of "Fight to the bitter end." Immediately after his successful escape he was made minister of war and as such was a great factor in the complete overthrow of the second empire.

Make Sunflower Useful.

In some countries, notably in the Russian provinces north of the Caucasus, the sunflower serves other purposes besides ornamenting gardens with its huge golden blossoms. The seeds are used to make oil, which is employed both in the manufacture of soap and in cooking. The stems and leaves are burned and the ashes used to make potash. Last year the sunflower factories of the Caucasus produced 15,000 tons of potash.

Old Cushion Dance.

The cushion dance was originally an old country dance in triple time, which was introduced into court at the time of Elizabeth. The dance was very simple. A performer took a cushion and after dancing for a few minutes stopped and threw the cushion before one of the spectators. The one so selected had to kneel on the cushion and allow the dancer to kiss her. After which he repeated the dance.

Devices of Smugglers.

The various gates of Paris are guarded by customs collectors, and the devices used to deceive them are shown in the museum. A dummy stomach, which was a sort of India rubber pocket, was used by one apparently portly gentleman to carry dutiable goods into the city. Other exhibits are a horse collar which was filled with chloroform and a cart with shafts which contained neatly rolled up lace.

TAFT IS PLEASED BY HIS OHIO TRIP

BELIEVES LABOR'S ATTITUDE IS
MISREPRESENTED.

TRAIN OFF TRACK AGAIN

Timothy Healey Quoted as Authority
for Keefe Story—Bryan Ad-
dresses Many Old Friends
in Nebraska.

Wheeling, W. Va., Oct. 15.—Judge Taft Wednesday concluded his three-day campaign in Ohio. What he thinks of the situation is set forth in the following statement which he issued at night:

"I have now spent three days in the state of Ohio, much of the time in industrial and labor centers, among men who, it was reported, were disaffected and opposed to the Republican party and its candidates. Wherever I appeared I was cordially received, and only on occasional interruption indicated that misrepresentation of the attitude of the party and the candidates had made a casual impression. It is my opinion that the attitude of labor toward the Republican party has been misrepresented quite as freely as that of the party and the candidate toward labor, and I find no reason for the belief that labor will divide other than on the lines that have heretofore divided it. In my opinion the normal Republican labor vote will be cast, as heretofore.

"In the agricultural regions it is quite apparent that the farmers are opposed to a change that will imperil their present prosperity.

"The situation in Ohio is entirely satisfactory and no one has any reasonable doubt but that the Republican majority will be a substantial one. I certainly have no doubt on the subject myself."

Train Has Another Accident.

Again Wednesday the Taft special was delayed by accident. In trying to negotiate a spurtrack, from Cadiz Junction to Cadiz, O., it was found that the train was too heavy for the grade, notwithstanding two engines were used. The train was run back to the junction and three cars cut off. On the second attempt, while a speed of about ten miles an hour was being made, two wheels of the second engine jumped the track. On either side of the track the bank sloped down for 20 feet, and that the engine did not go over was said to be due to the pilot engine. No one was injured.

Ten or twelve speeches were mapped out for the candidate Thursday on his way to Louisville, Ky., where he goes for an evening meeting. The following two days of the southern tour will have a lighter speaking itinerary.

Author of the Keefe Story.

New York, Oct. 15.—The Democratic national committee issued a statement Wednesday night quoting Timothy Healey, president of the International Brotherhood of Stationary Firemen, as authority for the allegation that Daniel J. Keefe had been promised by the president appointment as commissioner general of immigration in return for the Detroit labor leader's support of Taft. The national committee had promised to make known its informant if the charge was denied, as it has been both by Keefe and at the White House.

The national committee quotes Mr. Healey in part as follows:

"I was in Washington Wednesday of last week on a matter dealing with our organization, which brought me in contact with an official of high standing in the government service. He said to me:

"Dan Keefe has been selected for commissioner general of immigration."

Cabinet Member Involved.

"I asked him how he knew, and he told me that his informant was a member of the president's cabinet and knew what he was talking about.

"This information was not given to me in a confidential manner, but I will not give my informant's name, for it is plain to see what would happen to him if his name came out.

"There is not any doubt in my mind that the statement that the president offered Keefe the position and that Keefe agreed to accept is true. Perhaps the offer was not made at the conference on October 3 last, but I believe it has been made."

Bryan Talks to Old Friends.

Hebron, Neb., Oct. 15.—The second day's tour of Nebraska by William J. Bryan was brought to a close at this place Wednesday night. Twenty-two speeches were made during the day by the Democratic candidate. It was by far the most enthusiastic day for Mr. Bryan during the trip, and the crowds which greeted him at the various stations were composed largely of old friends of the candidate who had heard him many times as a stump-speaker during the last 20 years, and before he was known as a presidential possibility. With the conclusion of his work Mr. Bryan expressed himself as being greatly pleased with his reception in his home state.

When Mr. Bryan retired at night at Hebron he expressed himself as being in the best of physical condition. He has so far spoken 47 times in the last two days, and is apparently less affected by the hard work than any other man in his party. The state committee assigned 18 speeches to him for Thursday, but in all probability the "extras" will bring that number up to 25.

But M. Tschaikevsky will be obliged to furnish \$25,000 bail, pending his trial, the date for which has not yet been fixed.

He was in the room of Edward Cudahy, Jr., who was kidnapped seven years ago.

RABBITS ARE HARD FIGHTERS.

The Charge of Cowardice a Slander—
Defeat of a Ferret.

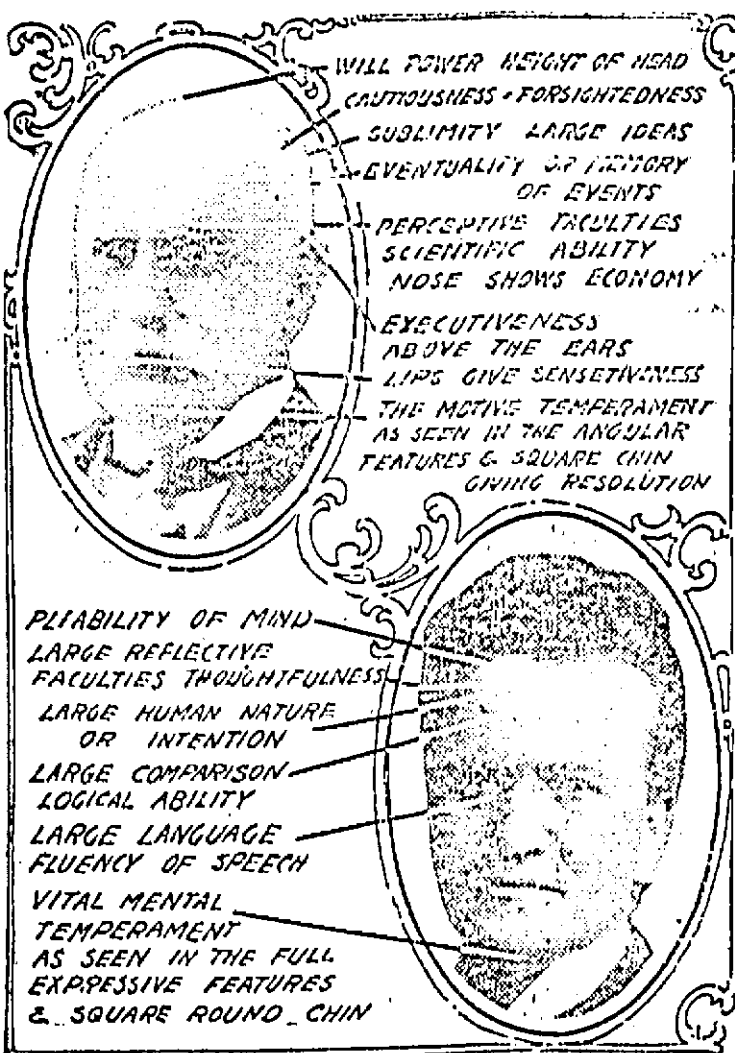

Tell a man that he hasn't the pluck of a rabbit and if he doesn't disprove it by hitting you he is certain at any rate to be extremely annoyed.

Yet the taunt is a libel on the rabbit. A doe rabbit will fight like fury in defense of her young. She will charge like a battering ram and use those long sharp incisors of hers to capital purpose.

An old buck rabbit is not to be lightly tackled by weasel, stoat or even ferret. On the sanded floor of a small public house near Chestnut a ferret of long experience was matched with an old leoparded buck, the property of the landlord.

The ferret made straight for the rabbit's throat, but the latter was in the air before master ferret could reach him, and leaping clean over the ferret's head let out with those powerful hind legs of his a kick which hurled the ferret bodily against the wall. Twice the ferret returned to the attack and twice he missed his grip and went hurtling through the air.

The third repulse was enough for him. He knew he was beaten and could not be persuaded to stand up for a fourth round. —Pearson's Weekly.

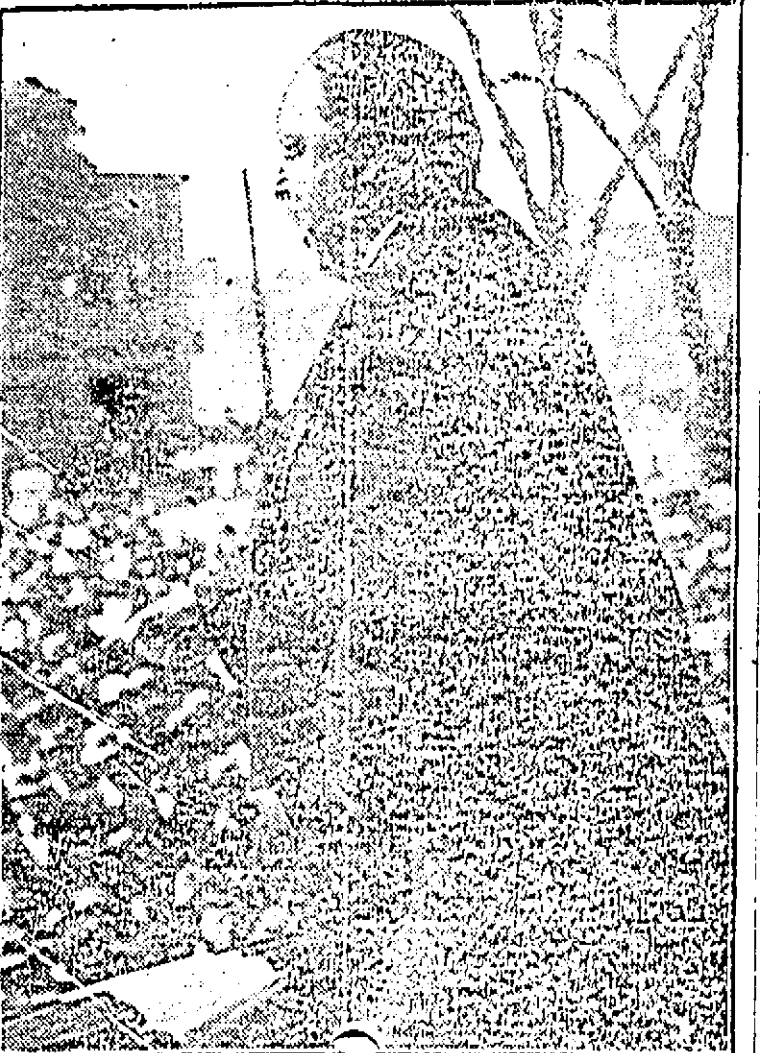

A COMPARATIVE STUDY OF THE HEADS OF SENATOR NELSON W. ALDRICH AND SENATOR LA FOLLETTE.

(By Jesse Allen Fowler.)

No more interesting or contrasting of features are to be seen in the senate chamber than Nelson W. Aldrich and Senator La Follette. Each is the leader of factions continually warring against one another. It is interesting to note the characteristics in the cranial development of the two men.

A remarkable snapshot of the three William Jennings Bryan at left, Norman E. Mack in center, Vice Presidential Nominee John Kern at right.

A striking and intimate picture of republican presidential nominee William Howard Taft driving home an argument to the assembled multitudes during his campaign in the middle west.

With Thanks.
John Budd was a most sedate, precise and altogether exemplary young man. When he wooed and won Susan Smiley, the belle of the village, everybody rejoiced at John's good fortune. However, he bore his triumph with modesty and decorum until the day of the wedding. Then for one awful moment his air of aplomb failed him. When the officiating clergyman asked, "Will you, John, take this woman to be thy wedded wife?" John responded blushing, "Yes, please,"—Harper's Weekly.

Something Good.
Johnnie on his first visit to his grandparents, who live in the country, commented with his anxious family as follows:

Dear Ma—I am well and hope you are. Your loving son, JOHNIE.
If you want something good, get a red cabbage and eat it raw.

Her Revenge.

WALTER ROSCOE STUBBS, REPUBLICAN CANDIDATE FOR GOVERNOR OF KANSAS, AT LEFT JERE MIAH BOTKIN, DEMOCRATIC NOMINEE FOR GOVERNOR AT RIGHT.

NEW YORK PLANS THE GREAT
EST UNDERGROUND RAILWAY
EVER CONCEIVED.

Upper right, Henry J. Pierce, Lower
right, William J. Wilgus. Map shows
\$100,000,000 freight tunnel proposed
around Manhattan.

New York—The greatest transportation
project ever proposed in Man-
hattan, the new through freight tunnel
around Manhattan, Henry J. Pierce
and William J. Wilgus are the men
back of the enterprise.

The stupendous engineering prob-
lems that presented themselves to Mc-
Adoo in building the passenger sub-
way will fade into nothing when com-
pared with those that will have to be
met by the promoters of the proposed
gigantic scheme. The man who will
have the major part of the work to do
is William J. Wilgus, whose engineer-
ing ability is indispensable to the suc-
cessful execution of the big scheme.

Prior to the man behind the subway
freight line movement, plan to take
off the streets of New York much of
the traffic in carrying merchandise
from point to point. The subway will

be exclusively for freight and it will
pass through or beneath the big mer-
chandise shipping buildings of Man-
hattan. Refuse also will be disposed of
by way of the freight subway.
The understanding here is that a
combination of railroads are behind
the project and will furnish the im-
mense amount of capital which will
be required to put it through.
The electrically operated cartage
and subway system is to be a four-
track subway freight terminal railway
around the waterfront of Manhattan
Island from a connection with the New

York Central freight tracks at Sixtieth
street and the North river, thence
south along the North river to the
Battery, thence up the East river to the
connection with the New York, New
Haven & Hartford railway in the
Bronx. A cross-town line at Fortieth
street would form a complete circuit
south thereof and would connect by a
tunnel under the North river with a
freight classification yard back of the
Bergen Hills in New Jersey, where the
freight would be assembled and
handed by the railway terminating at
the North river in New Jersey.

The plan shows the complete route
of the system and in and around the
Island of Manhattan and includes a
line from the classification yard in
New Jersey connecting by a surface
belt line with the Pennsylvania, the
West Shore, the Erie, the Delaware,
Lackawanna & Western and the Le-
high Valley railroads, the Central rail-
road of New Jersey and the Baltimore
& Ohio railway.

From the river front subway freight
belt line around Manhattan Island
cartage tunnels would extend under
the sidewalks, direct to the buildings

occupied by receivers and shippers
of freight. Incoming freight would be
transferred in the classification yard
in New Jersey into trolley cars elec-
trically operated. These trolley cars,
passing through the tunnel under the
river and along the main belt line
would enter direct by cartage tunnel
the building of the receiver of the
freight. Outgoing freight would be
loaded into the trolley cars in the
buildings of the shippers and would
go to the classification yard for trans-
fer to its destination throughout the
country.

S. M. Clapper has the contract for building the new schoolhouse at Alton Grove.

Mr. and Mrs. A. E. Rosenbrot entertained company over Sunday.

Mr. and Mrs. S. M. Clapper have been entertaining company from Madison, Wis.

Miss Emma Hanson has been under the doctor's care for a few days. The L. A. will meet with Mrs. M. D. Usher Thursday afternoon of this week.

Col. W. F. Tucker very ill.

Taken to the Hot Springs Government Hospital.

May Not Survive Journey—Move Investigated by Mrs. Logan to Exclude Nurse.

St. Louis, Oct. 15.—Col. William F. Tucker, assistant paymaster of the United States army, on whom a warrant was served at Decatur, Ill., early Tuesday, charging wife desertion, left St. Louis for Hot Springs, Ark., on an Iron Mountain train at nine o'clock Wednesday night.

Col. Tucker is a very sick man and whether he will survive the journey is problematical. He was accompanied to the Union station by Dr. Louis H. Hebron, who was called into the case Tuesday night.

Accompanying Col. Tucker to Hot Springs are: G. H. Froy of Chicago and his sister, Mrs. Myrtle Platt, a former teacher in the Philippines, who has been nursing Col. Tucker in his present illness; Mrs. Jennie T. Johnson of Oak Park, Ill., who is a sister of Col. Tucker, and a Filipino servant.

Col. Tucker will be taken to the government hospital at Hot Springs, where he was ordered by Secretary of State Wright. This action of Secretary Wright, it appears, was taken at the instigation of Mrs. John A. Logan, the mother-in-law of the colonel, who desired that he be no longer nursed by Mrs. Platt. Under the rules of the hospital at Hot Springs outside nurses are not permitted to care for patients there.

BASEBALL WRITERS UNITE.

Detroit, Mich., Oct. 15.—Baseball writers connected with the leading daily papers of every major league city excepting Brooklyn met here Wednesday and formed an organization to be known as the Baseball Writers' Association of America. Its objects are to promote uniformity in scoring methods, to act in conjunction with the leagues in rules revision suggestions, and to gain control of baseball press boxes, the conduct of which is a sore spot with working newspaper men all over the country.

Joe S. Jackson of Detroit was elected president, I. E. Sarnoff of Chicago secretary, and T. H. Murnan of Boston treasurer.

OIL TANKS DESTROYED.
Spectacular Blaze at Standard's Plant Near Baltimore.

Baltimore, Md., Oct. 15.—A spectacular fire broke out shortly before three o'clock Wednesday afternoon at the Canton plant of the Standard Oil Company, a short distance beyond the eastern limits of this city, and it was not under control until nearly four hours later.

The fire originated in the pump house, where a spark set fire to oily pipes and the blaze ran along them to nearby tanks, of which three were destroyed. Explosions caused breakers in the connecting pipes and prevented the pumping off of the oil. A fireman and a few bystanders were slightly hurt by flying debris.

Cleveland, O., Oct. 15.—Fanned by a gale, flames started by an engine's spark swept over fields, burned to the ground a large stone crushing mill, and destroyed 50 acres of valuable timber in the woodlands three miles south of Euclid village Wednesday. So far the loss is estimated at \$50,000.

MANY LIVE CANDIDATES IN THIS CONTEST

If You Wish to Win You Will Have to Hustle, As There Are Very Few Inactive Contestants in the Lists and Some Fast Work is Already Being Done By Many.

John Fisher, From District No. Two, Holds the High Vote Today. Who Will Be There Tomorrow?

In the Janesville district Miss Estella Mueller-Schlaeder is still in the lead but is so closely pressed for the position of honor by Mrs. Fred Blakeley that it can hardly be claimed as anybody's. In fact any candidate could secure enough votes in an hour to capture the lead at this stage of the race.

C. P. Brockhaus, the candidate representing the G. U. G. is hanging on to the leadership in the gentlemen's list and is being picked as the probable winner by many of his friends and admirers. However, this list is a fertile field for surprises. Any one of five or six contenders for the lead seemingly have the ability to jump to the front whenever they may think it advisable. Every candidate is following out their own idea regarding the best way to win. Some are putting away a liberal share of the votes they receive as a surprise at the finish while others vote all they get and believe that because they are making a good showing in the daily score they are conducting a winning campaign. The outside district provided the heavy voters of yesterday. Mrs. Chas. Kilmer by a lively spirit exchanged places with Miss Selma Hannel. There was a typographical error in the score of Miss Mauda Jones yesterday. The correction places her in third place. By a tremendous vote John Fisher not only passes N. W. Punker, the leader of the past week in this district, but captures the top position of the entire contest. Arthur Jones of Brookfield made a very creditable climb to the front yesterday. Candidates are now alive to the situation and all realize that the only way to win is to make collections on subscriptions, both new and old, and get the certificates of votes issued with these collections. If you wish to keep up with the bunch, get busy.

HAVE YOU GOT A CLUB?
You Should Not Fail To Get At Least One This Week And Put Aside a Reserve Vote. You Will Need It At The End.

EACH CANDIDATE sending or bringing to the Gazette office five NEW yearly subscribers by Oct. 19th, at 9 P. M., will be given a ballot for 10,000 extra votes. NEW six month subscriptions will be counted as two six month subscriptions. Five new yearly or five new six months' subscriptions will constitute a CLUB. Don't be satisfied with a few Clubs, get as many as you can.

BASE BALL FANS

WATCHED SCORES

GAZETTE GAVE RUNNING AC-

COUNT OF WORLD'S SERIES

POSTED EACH INNING

Goody Number Took Advantage of
Privilege and Followed Game Each
Day as Fast as Played.

Since the World's Championship
baseball series began last Saturday in
Detroit a goodly number of Janesville
baseball enthusiasts have each after-
noon availed themselves of the oppor-
tunity of watching the progress of the
game as scored by linings at the Ga-
zette office. The runs were recorded
on the big score sheet as fast as made
in the ball parks and gave the watch-
ers an opportunity of following the
game closely.

By winning four out of the five
games for the Championship the Chi-
cago Cub team is now the undisputed
champion of the world. Its defeat of
New York last Thursday made it the
champion of the National league and
by winning from Detroit, champion
of the American league, it now holds
the world's championship. In all six-
ty-two thousand two hundred and for-
ty-two persons witnessed the games.

The total receipts in each game were
\$34,376, with the city owning the
share of \$2,380, the commission's
share \$9,497, and the players of the
two teams have \$24,493 to divide.

There is some talk of the two teams
playing two more games, on Saturday
and Sunday, in Chicago to boost their
share of the receipts and arrange-
ments are pending with this in view.

It was some twenty-three years ago
that the first world's series was played
when the St. Louis Browns, win-
ners of the association honors, de-
feated the Chicago, and again the
following year duplicated their suc-
cess at Detroit. In 1887 Detroit got
the baseball laurels supreme. It was
during the "big four" regime.

Then followed series after series,
gradually the play becoming more
popular until the explosion of the
American association and finally in
1900 the reorganization of it in the
name of the American league. The
Boston American league club was
twice winner of the honors. New
York Giants won it once, defeating the
Philadelphia Athletics in 1905. In
1906 the White Sox defeated the Cubs
in that memorable series. Last sea-
son Detroit fell before the prowess of
Chicago's men.

Plots of the pennant winners who
guide their clubs through a nerve-
racking season attending to their
players' every want lay back and rest
during the world's series, for every
detail is taken care of out of their hands
during the world's series. Four years
ago after the failure of New York and
Boston to meet in a world's series the
baseball's national commission, that
all powerful body consisting of Gar-
ret Morgan, Harry Frazar and John
Johnson, invited out an official which
stated that they and they alone would
attend to the driving of the world's
play.

And the play has been eminently
satisfactory, disposing at once of the
various rumors and arguments of
"fool play" from player and specta-
tor, which was so wont to arise in
series gone by. Following immedi-
ately the action of the commission
in taking over the series this annual
play has been immensely more popular.

The division of the gate money of
the world's series is as follows:

Ten per cent of all the receipts go
to the national commission for ex-
penses. Last season in the series be-
tween Detroit and Chicago this
amounted to more than \$10,000.

Of the 90 per cent remaining—in
the first four games—the players re-
ceive 60 per cent and the club owners
40 per cent.

After the first four days the total
amount taken in—having reached 50 per
cent—prolonged the contest along-
go to the owners of the two clubs.

The club owners' share is always
equally divided regardless of results.

The players' share is divided on the
basis of 60 per cent to the winners
and 40 per cent to the losers.

An innovation this season was the
rule prohibiting club owners from of-
fering "bonuses" to the players' re-
gular receipts as provided in the rules.
It was back in 1903 that the Phila-
delphia Phillies thought defeated for the
all-championship by the Boston Ameri-

can league, having been defeated by the
Boston Red Sox. The Phillies then
offered a bonus to the players and
their rivals through the generosity of
their owner, who added to the play-
ers' share the entire amount belong-
ing to the club. When the Athletics
lost to the Giants in 1905 they, too,
were given the club owners' share to-
gether with what was legitimately
coming to them.

In 1906 Comiskey, the big hearted
owner of the Chicago White Sox, gave
his players \$15,000 besides their regu-
lar share for winning from the Cubs.
President Taft's of the Tigers last
season handed out \$15,000 to his
players for their valiant service and
the players split among themselves some-
thing like \$47,000.

Many Janesville People Suffer From

Nervous Troubles and Don't

Know Why.

Thousands of cases of kidney trou-
ble show few outward symptoms. Ex-
cept nervousness, depression, languor,
irritability and an inclination to worry
over trifles. It is generally due to
the poisonous action of uric acid on
blood and nerves, and can't be cured
except by curing the kidneys. Doan's
Kidney Pills cure these ills by curing
the kidneys. Janesville women are
learning it. Here's a local case.

Mrs. James Plants, living at 203 S.
Hart St., Janesville, Wis., says: "For
some time I felt miserable. My sys-
tem seemed to be all run down. I was
nervous at times and upon examina-
tion found that my kidneys were weak.
I decided to try a kidney tonic and
sent to the People's drug store for a
box of Doan's Kidney Pills. I took
them and can say I am very much
pleased with the results obtained. I
am feeling so much better that I do
not hesitate to give my name as a
public endorser of such an excellent
kidney remedy."

For sale by all dealers. Price 50
cents. Foster-McMillan Co., Buffalo,

States.

LEVI CASS RETIRED

IN EIGHTIETH YEAR

Former Principal of Janesville High

School Has Taught in Albany, N.

Y., for Four Decades.

Levi Cass, who was principal of the
Janesville High school in the early
'60's and who is well remembered by
the older citizens, has, at his own re-
quest been retired on an annuity of
\$600 after forty years of continuous
service as principal in the public
schools at Albany, New York.

A copy of the school board proceedings,
recently came to Mrs. Leo Berra of
this city and contains the following
tribute to the aged teacher:

"It is fitting that this board should
enter upon its records its apprecia-
tion of the service rendered in the
public schools of this city by Principal
Levi Cass, at his own request, from
active duty at this day retired. He
was born February 1, 1828, in Genesee
county, N. Y., and received his pre-
paratory education at the Cherry Val-
ley Academy and his professional
training at the State Normal School
at Albany. He taught at LaGrange,
N. Y., in the Albany Academy, was
principal of the high school at Janes-
ville, Wis., and later conducted a suc-
cessful private school in this city. In
1868 he was appointed principal of
public school No. 2, and in 1871 he
was placed in charge of school No.
15, for many years the largest and,
in some respects, the most important
of the elementary schools.

"During the forty years of his prin-
cipalship, Mr. Cass has been distin-
guished for skill in organization, close
and effective supervision of instruc-
tion, and a remarkable power of con-
trol of children that gave school No.
15 a wide and well-deserved reputa-
tion for orderly management; while
its graduates have always been well
prepared for the work of the high
school or for the various employ-
ments to which they have entered.

"In all his relations to his subor-
dinate, his associates, his neighbors
and many friends, Mr. Cass has been
most happy, commanding and receiv-
ing the respect and good-will of all.
His service to the city cannot be
measured or described. It is exem-
plified in the lives and conduct of
the thousands of Albatons who have
passed through his forming hands.

The board wishes that his sunset
days may be passed in the ease and
comfort his long life of usefulness en-
titled him to enjoy."

page of his courtroom the other day
and wanted to express contempt of
the page's mental capabilities. "You
are a wooden head," declared the
clerk. "Why, if your brain was made
of dynamite and some one should set
it off the courthouse wouldn't miss

foot ball team, it is planned to meet
the high school team from Monroe at

OLD ICE HOUSE ROOF

FELL IN LAST NIGHT

Crash Occurred About Half-Past Seven

o'clock and Was Caused by Rot-

ting Away of Studding.

Gradual rotting away of the studding
during the past fifteen years was
responsible for the collapse of the en-
tire roof of the old icehouse, which
occurred at half-past seven o'clock
last evening. The noise of the crash
attracted the attention of the entire
neighborhood. Fortunately, no one
happened to be inside the building at
the time. The structure belongs to
the City Ice Co. and will have to be
rebuilt before the new crop is har-
vested. The

FORTY YEARS AGO

Janesville Daily Gazette, October 15, 1868.—Let the illuminations of the city be a grand success on Friday evening. The result of the recent election has cast an unusual light upon the political horizon and the light dispelling darkness and error is set down among the autumn fashions. We cannot have too much of it. We shall doubtless have a large and enthusiastic meeting here during the day, which will continue into the evening, interspersed with music, and the march of the Tanners, with their torches. A good illumination of the city would add immensely to the general effect, and we second the proposition for this purpose which was made and adopted at the Republican club last evening.

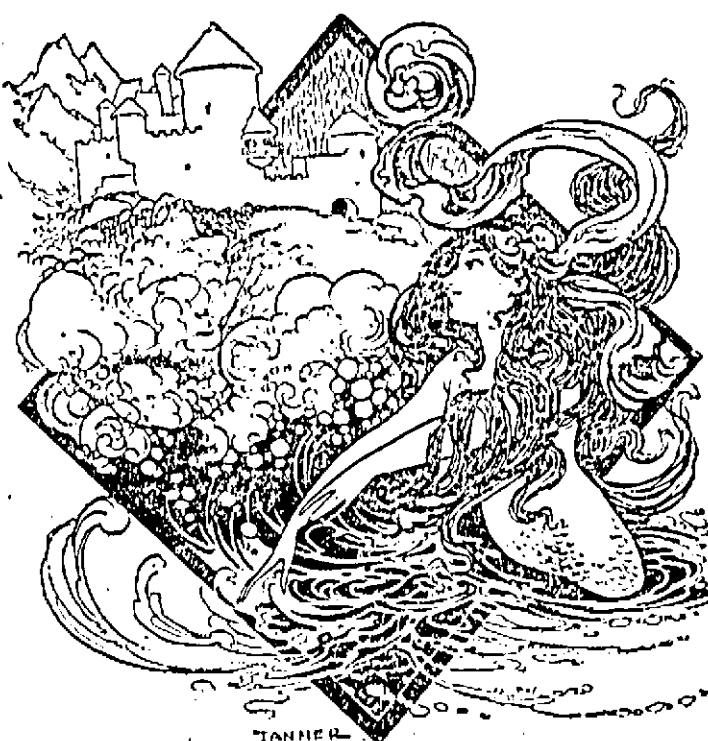

The Tanners' Dinner.—From all advice all the Tanners in the county will be here tomorrow, and of course a large amount of provisions will be necessary. The cooking and preparation of the dinner will be in charge of the ladies on the various ward committees, who have also solicited the provisions for the dinner.

Republican Rally Tonight.—J. C. Converse, Esq., and Dr. H. P. Strong of Deloit, will address the people at the Court Room this evening. These gentlemen are able and effective speakers. The Tanners will be out in force and the Globe Club will give us some of their inspiring music.

The Last Entertainment.—The entertainment of the amateur dramatic company last evening was well attended, and the audience was well pleased. A number of those who took part in the performance exhibited excellent dramatic taste and very commendable talent. Their second and last entertainment will be given tonight and the indications are that there will be a full house.

Evening School.—The Janesville Commercial College is just commencing a term of evening sessions which are to continue until April next. This will afford to young men who are employed during the day, an excellent opportunity to improve their evenings. The number of students at the day session is rapidly increasing and the prospect promises a very large attendance during the winter.

A Tremendous Shake.—The recent South American earthquake was a tremendous shake. Its effects were perceptible over three quarters of the globe. At San Pedro, California, August 15th, the ocean rose sixty feet above the usual high water mark, and the same tidal wave was manifested on the same day at Yokohama in Japan. On the day of the earthquake a terrible tornado swept over Buenos Ayres, destroying lives, houses, ships, and earthquake shocks were felt in the city of Mexico, August 14, the day after those in Peru.

EXTENDS CIVIL SERVICE

ORDER IN CONFORMITY WITH THE LAW IS ISSUED.

Many More Government Offices Put Into the Classified List by the President.

Washington, Oct. 15.—Many government offices are brought into the classified executive service and future appointments to them must accordingly be filled under the civil service rules, under an executive order which the president signed last Friday and announced Wednesday.

They include employees in the five civil service commissions, including clerks, stenographers, law clerks, inspectors, watchmen and messengers, 112 in all; persons connected with logging operations of the general land office, rangers, supervisors, foresters and other employees of the national parks and reservations, clerks in the bureau of education paid from the general appropriation for education in Alaska, "additional farmers" in the Indian service, employees connected with the allotting and irrigation projects in the Indian service, a law clerk and assistant in the state department, an inspector and overseer in the Fort Leavenworth penitentiary, and scattered employees in other departments, whose positions are similar to those which heretofore were classified and subject to examinations.

The order, according to the civil service commission, brings the service more completely into conformity with requirements of the civil service law, and it excepts from examination all positions and employments which cannot be so filled, such positions to be hereafter enumerated in a formal schedule of exceptions.

Nebraska Fund Published. Lincoln, Neb., Oct. 15.—In response to a demand from Republican newspapers, H. C. Lindsay, treasurer of the state Republican committee, Wednesday opened his contribution book with permission for the publication of everything found therein. The bulk of the \$11,000 collected since June 1 is made up of small contributions from Nebraska postmasters. All the contributions of \$50 or more are from state officers, Gov. Sheldon giving \$250, the largest amount received from an individual. The national committee has contributed \$3,500 to the state fund. Early in the campaign, the books show, the committee was forced to borrow \$500 from a local bank.

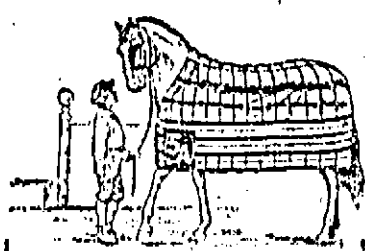

Tramp Asks College Chair. Chicago, Oct. 15.—Francis Royacker, who is a tramp, presented himself at the office of Prof. Edmund Hallist, head of romance languages in Northwestern university, and, speaking in French, asked that he be made instructor of Esperanto in the college. Prof. Hallist declined the offer.

Ambassador Creel Resigns. Mexico City, Oct. 15.—The Mexican foreign office has confirmed the resignation of Enrique C. Creel as ambassador to the United States.

Why He Remained at Home. "So you don't care for society?" "I shouldn't say that," answered Mr. Cumrex. "I haven't any objection to society. But I don't like chicken salad and tea cream."

Reunion of Kansas Cavalry. Kansas City, Mo., Oct. 15.—Seventy of the 130 living members of the Fifth Kansas cavalry, which did hard fighting in Missouri and Arkansas in the civil war, convened in Kansas City, Kan., Wednesday in reunion. Among those present were W. A. Jenkins of Chicago, who was lieutenant colonel of the regiment in the war, and Gen. Powell Clayton of Washington.

1,500 POUND TURTLE CAUGHT OFF THE MAINE COAST.

The little fishing sloop St. Paul, Capt. Reuben Johnson, brought to Portland recently a monster sea turtle, which was captured 10 miles south-east of that island.

Thompson's Sloop was standing in the "pilot" harbor in hand, watch-

ing for swordfish, when he saw the turtle moving slowly through the water. He threw the dart and succeeded in putting it deep in a flipper. The monster was finally got aboard by means of an improvised derrick, full and tackle, after considerable hard work. It was brought to Portland and sold to a fish dealer, who made quite a tidy sum exhibiting it. The turtle was 10 feet long and weighed over 1,500 pounds. There has been considerable speculation as to just what variety of turtle this belongs, as nothing like it was ever captured in Maine waters, so far as known.

Male Friendships.

Remarks have been made lately as regards the apparent decline of close personal friendships between men. Perhaps something in our busy modern life accounts for our lower note in masculine friendships. Perhaps, too, much that belonged to interchanges between man and man is now possible between woman and man, as equals.—Light.
